ABOUT ME

I'm a passionate, self-taught Front End Developer looking for my first professional experience. I'm focused on continuous learning and perpetual growth as a developer.

TECHNOLOGIES

- Javascript/ReactJS
- NextJS
- TailwindCSS/Bootstrap
- NodeJS
- Git/Github

SKILLS

- Advanced english C2
- Soft skills
- Effective communication
- Notion /Trello
- Agile methodologies
- Problem solving

PROJECTS

Shopi - E-commerce

I developed the virtual store, including various pages, the login system, different categories, the shopping cart functionality, the checkout process, and the product listing. This was achieved by integrating an external API widely used by many students for learning purposes.

To Do App

I developed a task management app designed to help users keep track of their daily activities. Users can create, delete, and mark tasks as completed, as well as filter them by name for better organization.

STUDIES

03/2024 -

Codo a codo - Fullstack
